

QUAIL RUN HOMEOWNERS ASSOCIATION

Guidelines for Trash/Recycling/Yard Debris Service

Collection Contract & Schedule

- Quail Run HOA contracts with Sanipac for collection of trash and recycling. The HOA pays for these services on behalf of homeowners through its Sanipac commercial account. As part of this service, each home has a 35-gallon cart for trash, a 65-gallon cart for recycling, and a bin for glass recycling.
- Individual homeowners can establish an individual residential account with Sanipac for yard debris collection and/or for a larger trash container.
- Sanipac collects trash every Tuesday, recycling every other Tuesday, and yard debris every other Tuesday when recycling is not collected.
- When Monday is a holiday, Sanipac completes the collection service on Wednesday instead of Tuesday.

Sanipac Guidelines

- Place containers at curbs by 7:00 a.m. on days of collection.
- Leave 3 feet of space between containers.

Quail Run HOA Guidelines

- Sanipac carts are stored out of sight (*Bylaws 6.5*). Typically, residents store carts inside their garages and/or screened from view behind or on the side of their homes.
